

SPECIALIZING IN FIELD SERVICES TO THE PETROCHEMICAL & METAL FABRICATION INDUSTRIES

COASTALWS.COM

Connecting with you. **EVERYDAY.**

Coastal Welding Supply was founded in 1963 by Al Mazoch, with one facility located in Beaumont, Texas. Coastal has evolved from this single source service location to a Total Service Concept company with nine direct distribution facilities located in Southeast Texas and Southwest Louisiana.

Coastal Welding Supply is dedicated to developing business relationships that enhance the performance of both our customers and ourselves.

Our focus is on safety; on-time delivery of economical quality product fosters the goal of enhanced performance for ourselves and our customers. We provide our business partners with a team of seasoned sales and service professionals who stay on the cutting edge of new technologies and processes in our industry.

Equipment and Supplies

From welding machines to plasma cutting equipment, welding wires and electrodes, along with the latest in safety and protective gear.

Coastal Welding Supply is your one-stop-shop for welding and industrial supplies and equipment. We are proud to offer the industry's finest products at competitive prices.

Genuine Heliarc Tig Torches, MIG Torches and Equipment, Welding Rods and Wires, Stainless and Nickel Alloys, Oxy-fuel Torches and Regulators, Plasma Cutting Equipment, Safety Supplies, Welding Machine Sales, Service and Rentals.

Product Brands

Convenient Gas Delivery Systems

Bulk Gases

Coastal has combined supply chain efficiency with the widest variety of gas distribution products, along with impressive technical and customer support. This makes bulk gases easier and more effective to buy than ever before.

Coastal offers an exceptional line of both portable and stationary pre-engineered cryogenic tanks (500 to 15,000 gallons) for our industrial gas customers.

Oxygen, Nitrogen, Argon, Carbon Dioxide, Helium, Propane, Propylene

Coastal maintains a large inventory of portable bulk gas tanks and supplies. This provides our customers with timely solutions to temporary, large volume on-site bulk gas requirements.

Rental and Repair

Coastal operates one of the largest welding equipment repair and rental facilities in our market area.

Coastal is proud to be a warranty repair facility for most major brands of welding equipment including; Miller, Lincoln, ESAB, Hypertherm and Burny Kaliburn CNC controls and Plasma cutting systems. Our highly trained and skilled technicians provide complete trouble shooting and repairs from basic welding equipment to advanced new generation cutting and welding systems.

Coastal works with our customers to provide them the rental products necessary to keep their facilities and projects running smoothly. We consider each of our customers' requirements when providing rental equipment to fit their needs.

Microbulk Solutions Gas Management System

THE CHART MICROBULK ADVANTAGE

COASTAL DELIVERY

- Fast, reliable, accurate filling
- On-site refilling reduces your costs
- Provides better gas management

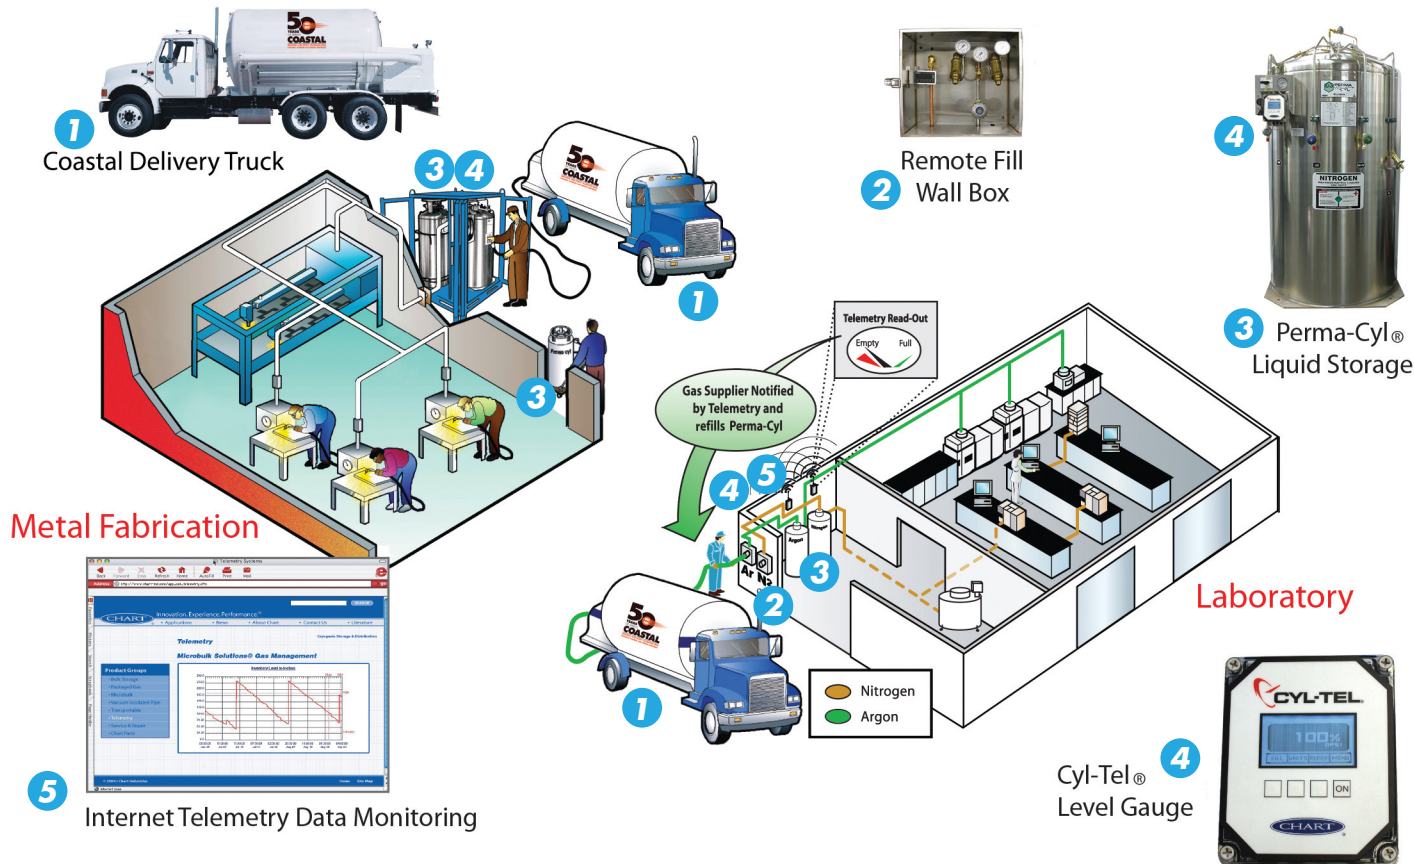

PERMA-CYL STORAGE

- Installed and dedicated to your application
- Eliminates cylinder handling
- Achieve a higher purity gas supply

CYL-TEL REMOTE MONITORING

- Eliminates product run-on
- User-friendly contents read-out
- Guarantees a continuous gas supply

- 1 Liquefied gases are delivered to the customer's facility with the COASTAL cryogenic delivery truck. Key controls and components on the COASTAL truck allow the driver to safely and quickly deliver the proper amount of liquid accurately into the Perma-Cyl storage vessel or small bulk tanks.
- 2 When the Perma-Cyl storage vessel is installed indoors, an external wall box can be added for remote filling. This allows the gas delivery to safely take place without the driver entering the building in most installations.
- 3 Liquefied gases are stored at ultra-cold temperatures in the vacuum-insulated Perma-Cyl. Customized controls for the application on the Perma-Cyl maintain the vessel at the proper delivery pressure and deliver gas or liquid on demand.
- 4 The Cyl-Tel electronic level gauge accurately monitors the cryogenic liquid level and is telemetry ready for remote monitoring or connection to customer monitoring systems.
- 5 Telemetry systems allow the gas supplier to remotely monitor the Perma-Cyl liquid level to maximize delivery efficiency without the risk of product outages.

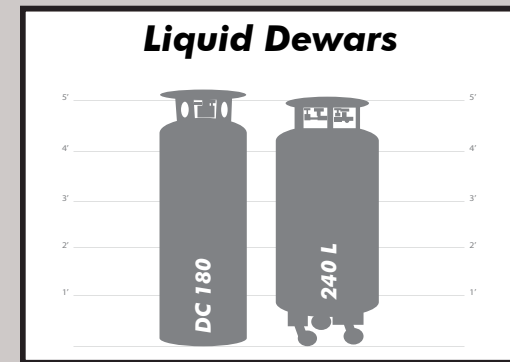

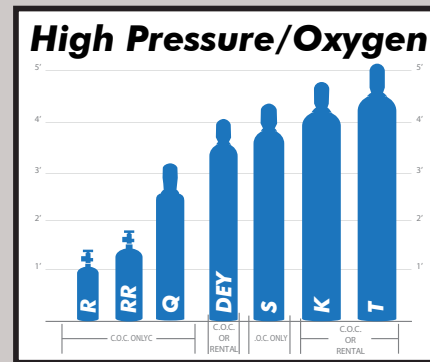

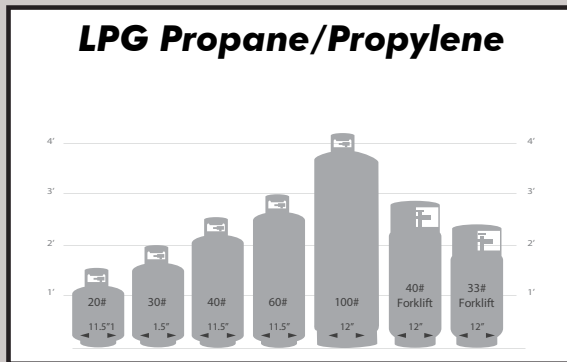

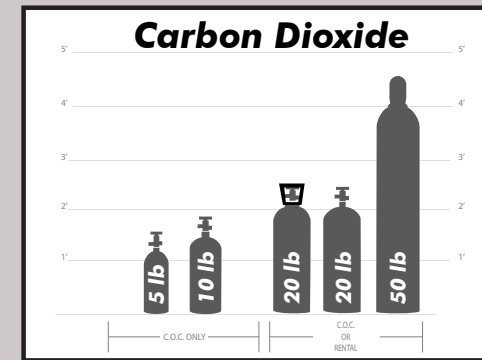

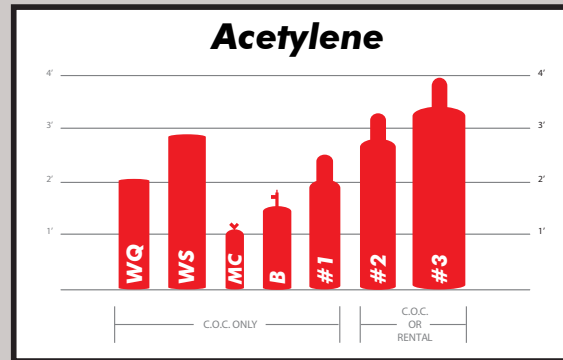

Coastal provides its customers with next day delivery service and maintains a seven day, 24 hour/on-call team to respond to emergencies.

Every Project is Different. We ALWAYS customize to your needs.

CYLINDER SIZING & IDENTIFICATION

In-House Cylinder Maintenance & Retest

Coastal provides its customers with UE (Ultrasonic Examination) cylinder testing. Having an on-site testing facility relieves our customers of the down time experiences from other companies who send their cylinders off site for maintenance and retesting.

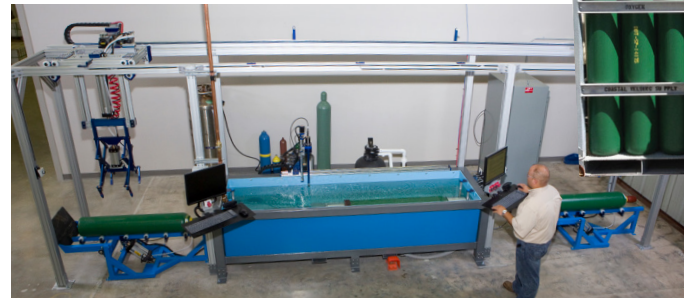

Cylinder Combination Packages

Coastal offers a large array of industrial and high purity cylinder clusters manifolded together to deliver gas at specified pressures and high volumes.

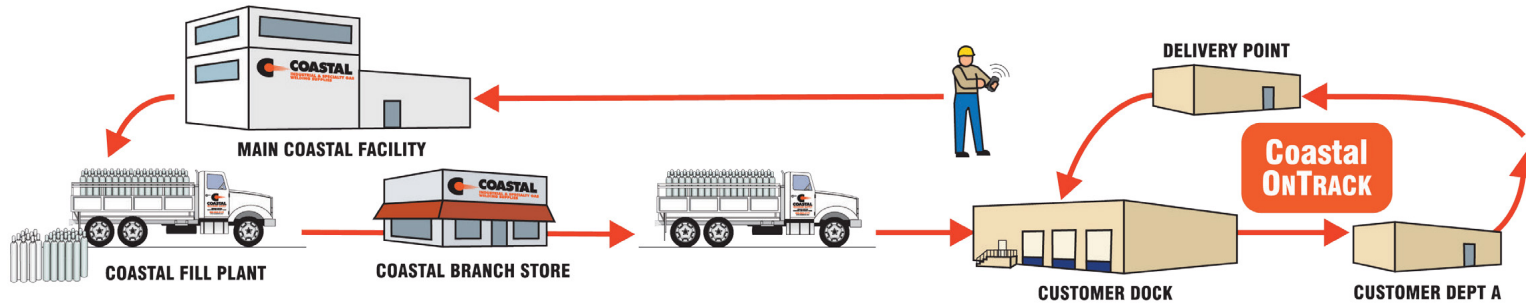

- 6-Bank Cylinder Clusters
- 12-Bank Cylinder Clusters
- Oxy/Fuel Rack
- Offshore Rack
- Medium and Jumbo Tube Trailers

Our cylinder clusters are engineered and fabricated in-house for superior quality, design and stability. All 6-bank and 12-bank cylinder clusters are hot-dip galvanized for added protection from our harsh Gulf Coast Environment.

Cluster and trailer delivery is fast, efficient and safe; utilizing custom on and off-road delivery equipment combinations.

Stay On Track with Coastal's Cylinder Management

SAVE TIME: Verify Your Asset Balance

- Quickly and accurately confirm cylinder inventory.
- Minimize regulatory compliance record keeping by having real-time inventory access.

SAVE MONEY: Reduce by Identifying Lost or Idle Cylinders

- Identify cylinders that are sitting idle or are no longer required.
- Identify cylinders that are empty and sitting at the facility.

SAVE TIME: Availability of Online Certificates of Analysis

- Online Certificates of Analysis - No need to call and wait for another copy.
- Search by lot number, bar code or serial number.

SAVE TIME AND MONEY: Optional Follow On Tracking Puts You in Control

- Coastal FollowOn allows customer-managed cylinder tracking.
- Cylinder information updated immediately when handhelds are synced.
- Web application software: no expensive software to purchase or maintain.
- Identify lost or missing cylinders immediately.

SECURITY

- Coastal OnTrack is hosted by TrackAbout®, a secure data center.
- TrackAbout® performs daily backups of all data.
- Changes to data cannot be made without leaving an audit trail.

COASTAL ONTRACK ASSISTS OTHERS

- Remote access to real-time inventory for inventoried hazardous materials.
- Track and manage.

Your single source for all your gas needs.

SUPPLY CHAIN EXCELLENCE WITH COASTAL ONTRACK

Utilizing RFID transponders for cylinder tracking, Coastal OnTrack offers 100% cylinder tracking, cylinder management and cylinder traceability. Coastal OnTrack assists with the reduction of operational costs by offering a real-time web based cylinder inventory program.

- Regulatory compliance record keeping
- Hazardous material management
- Increased security and accountability of cylinders
- Online certificates of analysis
- Detailed rental invoices
- Job cost accountability by job department or job site

SAVE MONEY - Reduce rental costs by identifying lost or idle cylinders.

Safety. Priority One.

COASTAL HAS BEEN PROVIDING ITS CUSTOMERS WITH THE HIGHEST SAFETY STANDARDS SINCE 1963.

Coastal maintains a large, safe and experienced logistics and delivery staff. This provides our customers with safe, on-time delivery of products and services. Our truck fleet consists of modern, well-maintained vehicles designed specifically for our industry and are only driven by experienced, highly-trained professional drivers.

Coastal is proud to have received the inaugural CGA/GAWDA Distributor Safety Award in 2011, and again in 2015 for companies that have shown the greatest safety performance during the previous two years. Although Coastal Welding Supply is primarily a supplier of top-quality gases and equipment, the safety of your operation is our number one priority.

You can look to Coastal for:

- Important safety products and equipment
- Current safety information
- Seminars on how to use our equipment and gases safely
- Immediate reaction time to manage your concerns

High Purity Hydrocarbons, Refrigerant Hydrocarbons & Specialty Gases

Coastal Welding Supply and Coastal Specialty Gas operates under a total service concept geared to partner and provide 100% of your Industrial and Specialty Gas requirements.

Coastal Specialty Gas focuses on the production of Ultra High Purity Gases, Laboratory and Environmental Calibration Standards of all types and compositions. Coastal produces the highest quality calibration gases including complex Hydrocarbon mixtures, Environmental calibration standards, EPA Protocols, HRVOC & CEM daily standards, Air Toxic monitoring, Natural Gas and BTU formulations, Engine Emission Standards, Sulfur Standards and specific mixtures, available in both vapor and liquid blends as well as portable/disposable packages.

Coastal offers Advanced Inventory Management (AIM) complete with order status tracking, portfolio listing of products used for each gas mixture, certificates of analysis, and much more. We utilize RFID transponders and bar codes on all of our cylinders as part of our Coastal AIM asset tracking system, providing customers with total cylinder management to provide cost distribution and reduce the cost of idle cylinders.

Coastal is a member of the North American PurityPlus Quality Assured Laboratories Group, which is a network of 150 independent specialty gas suppliers with over 600 service locations.

Coastal's mission is to always provide our customers with the highest quality products and services in a safe, timely, and economical manner, while working together with our customers to build a mutually beneficial partnership.

High Purity Hydrocarbons, Refrigerant Hydrocarbons & Specialty Gases

High Pressure

Packaging

Ethane	99.0% to 99.5%
Ethylene	99.0% to 99.95%
Methane	99.0% to 99.999%
Carbon Monoxide	99.0% to 99.5%
CNG	94.0% +
LNG	94.0% +
HCL Anhydrous	99.0% to 99.999%

Low Pressure

Packaging

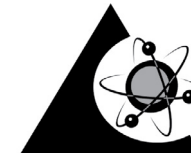

Propane	99.0% to 99.999%
Propylene	99.0% to 99.99%
Pentene-1	99.7%
Iso-Pentane	99.0% to 99.5%
n-Pentane	99.0% to 99.5%
n-Butane	99.0% to 99.99%
Butene-1	99.0% to 99.99%
Isobutane	99.0% to 99.999%
Isobutylene	99.0% to 99.9%
R-290 (UL Classified)	99.5% +
R-600a (UL Classified)	99.5% +
R-600	99.5% +
cis-2-Butene	99.0% to 99.5%
trans-2-Butene	99.0% to 99.5%
Mixed-2-Butenes	99.0% to 99.5%
Other Gases on Request
