COASTAL BEVCARB SYSTEM

BENEFITS

1

CONVENIENCE

No more changing high-pressure CO₂ cylinders or running out of CO₂ during peak rush hours.

2

QUALITY

Uninterrupted CO₂ flow eliminates flat drinks and ensures proper drink calibration.

3

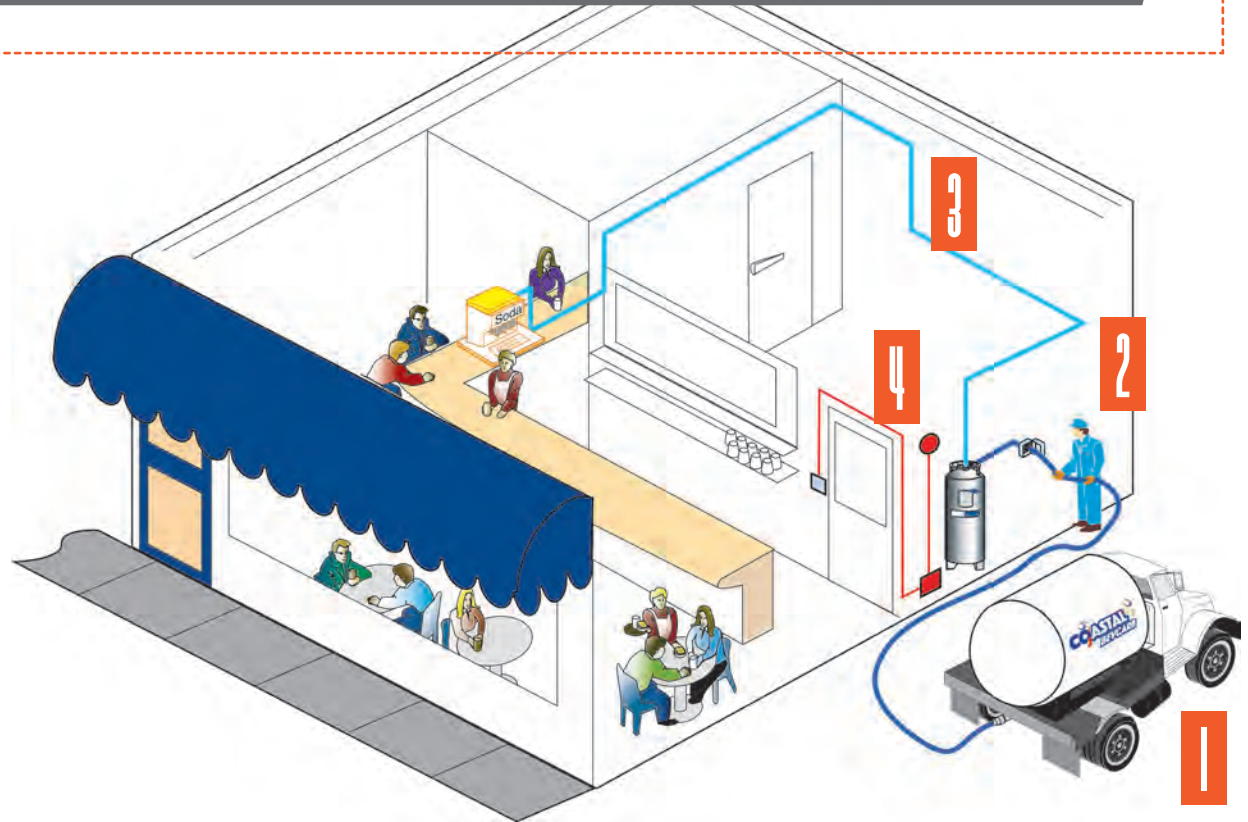

SAVINGS

Reduces CO₂ use and cost up to 30% with no residual CO₂ returned to the supplier.

4

SAFETY

Low operating pressure plus no cylinder handling eliminates job-related injuries.

MAXIMIZE YOUR BEVERAGE PROFITS

HOW IT WORKS:

1. Liquid CO₂ is delivered in bulk right to your location.
2. Liquid CO₂ is securely transferred into an onsite CO₂ storage tank. *Note: The CO₂ tank can also be installed inside if necessary.*
3. Certified beverage grade CO₂ guarantees your fountain drinks and draft beers are delivered with the perfect carbonation and ultimate flavor.
4. With the addition of our Coastal **BevConnect Monitoring System**, you can be assured a continuous supply of CO₂.
